The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6-8 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reckweg (WO97/08956) for reasons of record.

Applicants' arguments are directed to the process of making the product and not to the product itself. Process limitations do not carry patentable weight in product claims. No unobvious or unexpected result is seen from the phase volume of the polymer in the composition.

Claims 6-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gupta (EP 0864255) for reasons of record.

Applicants' arguments are directed to the process of making the product and not to the product itself. Process limitations do not carry patentable weight in product claims. No unobvious or unexpected result is seen from the phase volume of the polymer in the composition.

Claims 6-8 and 12 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable

over claims 1-7 of copending Application No. 10/496269 for reasons of record.

Applicant indicated his intent to file a terminal disclaimer but has not yet submitted it.

The rejection of the claims over Campbell has been withdrawn for the reasons argued by applicant.

Claims 1-5 and 9-11 are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
